Johannesburg, Gauteng, South Africa

Im a graduate in IT with practical experience in Java, JavaScript, HTML, and CSS. I've worked on both software and web development projects, and I also have a background in IT support. I enjoy solving problems, building user-friendly websites, and learning new tools. Im a fast learner, a good team player, and passionate about growing my skills in tech. Im seeking an opportunity where I can contribute, continue learning, and be part of a supportive team.

Work Experience

Java Development Trainee
Mecer Inter-Ed | Midrand

May 2025 - Present

- 5-month fully sponsored intensive training program covering Java, DevOps fundamentals, web technologies, and software development fundamentals.

Seasonal L1 Software Support Analyst
Construct Education, City of Cape Town | Western Cape

Dec 2024 - Jan 2025

- Provided front-line support for Canvas LMS users by troubleshooting issues, guiding users through solutions, and escalating complex problems. Ensured fast, clear, and high-quality responses to improve user experience and maintain support standards.

Junior IT Specialist
Goldstein Immigration Lawyers | Los Angeles

Mar 2024 - Aug 2024

- Provided technical support and troubleshooting for IT systems, ensuring smooth daily operations. Collaborated with the team to resolve software and hardware issues, and supported digital workflows using tools like Make.com, Zapier, Airtable, and Formstack.

Information Technology Intern
TCM - Technology Corporate Management | Bloemfontein

Nov 2022 - Oct 2023

- Delivered hybrid desktop support to clients in the banking and healthcare sectors. Handled repairs for printers, desktops, servers, and mobile devices. Assisted executives with network issues, ensured timely ticket resolution, and learned from a senior field engineer.

Projects

Portfolio

Jul 2023 - Present

A modern and responsive portfolio website built using HTML, CSS, and JavaScript

Spice Studio

May 2025 - Jun 2025

SpiceStudio is a charming kitchen assistant web application that helps users find recipes based on the ingredients they have on hand. The application features a notebook-style UI with Polaroid-like images for food photos.
